Dear Vern:

I have enjoyed your letter of December 6th describing the situation in Los Angeles. I am so happy that you could lend a hand to Bill and Julia. They are doing great work. I am sure that these difficulties will lessen and that people will learn to work together in harmony.

Regarding Mr. Squires: under no circumstances should you give him a list of your contacts in connection with the "Family of God" broadcasts. These people should not be approached. You will most certainly lose the effectiveness of your broadcasts if you identify yourself with any particular organization. I have absolute confidence in your judgment in this regard and I know you will not be swayed unduly by propositions such as was made by Mr. Squires, even though he is both honest and sincere.

My love to you and Nancy.

Sincerely,

E. L. Christensen
President
