

October 23, 1956

Sir Hubert Wilkins
Park Central Hotel
Framingham, Mass.

Dear Sir Hubert:

Warren Kulieke has turned over your letter to me to answer. We will send you the books in the next several days. The price is \$51.25, including postage.

I'm sure you'll be interested to know that we had a letter from Capt. James F. Griffin stationed at Narsarssuak Air Base, Greenland. He said he had been discussing philosophical matters with you the night before and he wanted to know something about our organization. I wrote him a letter describing the organization and the book briefly. He answered with a check for the book and after he had received it, he came back with another letter and some more questions about the origin. I told him that I could tell him nothing about the origin, except what was on the card, which I enclosed. Perhaps you've really turned up a good prospect. I recommended that he keep reading and he would find a lot of answers to his questions in the book itself.

I am glad you have had some success with your recipients, and I hope you have a lot more.

Cordially,

Secretary-General

Marian Rowley
